# Big Schedules Web Design

[www.bigschedules.com](http://www.bigschedules.com)

## Big Schedules App Design

The image displays a collage of screenshots from the Big Schedules mobile application, illustrating its user interface and key features:

- Top Left Screen:** Shows the main search interface with fields for '始发地' (Starting Port) and '目的地' (Destination Port), a date range '26/08/2017 - 08/09/2017 (2周)', and a search bar '船期查询' (Scheduling Query). A yellow arrow points from this screen to the 'Favorite 1' section below.
- Top Right Screen:** Shows the '船舶追踪' (Ship Tracking) search results. It includes a search bar, a 'Favorite 1' section listing 'HK to JP' and 'Shekou-TY', and a bottom navigation bar with icons for 搜索 (Search), 船期变动提醒 (Scheduling Change Alert), 新闻 (News), 分析 (Analysis), and 设定 (Settings).
- Middle Left Screen:** Shows the 'Favorite 1' section with 'HK to JP' and 'Shekou-TY' entries. Each entry shows a port call count ('1 对港口配搭'), a time frame ('于 2 周内'), and a list of shipping lines. Below this is a navigation bar with icons for 搜索, 船期变动提醒, 新闻, 分析, and 设定.
- Middle Center Screen:** Shows detailed scheduling information for the 'HK to JP' route. It lists '49 项结果 (2 秒)' (49 results in 2 seconds), departure ports '从 Shekou 到 Tokyo', arrival ports '船期 26/08-08/09', and shipping lines 'ANL Container Line'. Three specific routes are shown with pink arrows: 'JCVNCNC-WAN HAI 265' (Shekou to Tokyo, Aug 31), 'JTSCNC-SINGAPORE' (Shekou to Tokyo, Aug 24), and another 'JCVNCNC-WAN HAI 265' (Shekou to Tokyo, Sep 03). A yellow arrow points from the top left screen to this detailed view.
- Middle Right Screen:** Shows the '详细信息' (Detailed Information) for the 'JCVNCNC-WAN HAI 265' route. It lists departure port 'Shekou', arrival port 'Tokyo', ETD '02 Sep (Sat)', and ETA '07 Sep (Thu)'. It also shows the '截重柜时间' (Cut-off time) as '31 Aug (Thu)' and the '航线/船舶' (Route/Vessel) as 'JCVNCNC-WAN HAI 265'. A yellow arrow points from the middle center screen to this detailed view.
- Bottom Left Screen:** Shows three more scheduling routes: 'ANL Container Line' (Sep 02 to Sep 07), 'JTSCNC-SINGAPORE' (Sep 02 to Sep 07), and 'ANL Container Line' (Sep 02 to Sep 07). Below these is a button '查看船期可靠性分析报告' (View Scheduling Reliability Analysis Report) with a bar chart icon. A yellow arrow points from the middle right screen to this section.
- Bottom Center Screen:** Shows a map of the Indian Ocean and Africa with a blue line indicating a ship's route. Specific waypoints are marked with green dots: 'Pointe Noire' (ATD: Aug 11, ATA: Aug 21), 'Luanda' (ATD: Aug 13, ATA: Aug 20), and 'Cape Town' (ATD: Aug 14, ATA: Aug 01). A yellow arrow points from the bottom left screen to this map.
- Bottom Right Screen:** Shows the '船舶追踪' (Ship Tracking) interface for the 'ADRIAN SCHULTE' vessel. It lists four legs of the journey: 'Pointe Noire' to 'Luanda', 'Luanda' to 'Cape Town', 'Cape Town' to 'ADRIAN SCHULTE', and 'ADRIAN SCHULTE' back to 'Pointe Noire'. Each leg shows the departure time (ATD), arrival time (ATA), and the route number (e.g., ASAFLR 2374FWANL). A yellow arrow points from the bottom center screen to this tracking interface.
